

Residential Elevator

Taking your home
to the next level

Add a touch of luxury to suit your lifestyle

with a **Residential Elevator**, the latest in premium home access

Travel in style and with ease within your home with our elegant **Residential Elevator**, and enjoy where you live both now and in the future.

Enjoying the quiet sophistication

Featuring large vision panels in a clean frame, custom LED ceiling lights with optional colour choice, and one touch internal controls, the **Residential Elevator** is an impressive addition to any home.

Providing smooth and quiet through-floor travel, the elevator includes external controls on both floors, and is equipped with our new **Intelligent Logic Diagnostic Display** offering a wealth of benefits to the user.

This innovatory digital control system displays lift functions during travel and a simplified fault diagnostic, allowing most operational issues to be easily resolved automatically or over the phone with our support team.

Designed to be easily installed in a wide range of homes, the **Residential Elevator** is available in a range of sizes and with a travel distance up to 4.2 metres - one of the longest offered on the market!

Travelling on elegant vertical elevator rails, not only means minimal installation work, but when the lift is not in the room you can enjoy all of your living space.

Manufactured to the highest safety standards and with a range of optional extras, the **Residential Elevator** is the ultimate choice for adding value to your lifestyle at home.

Why take the stairs when you can travel effortlessly?

Offering a wide range of features to make it your own...
