

PLATFORM VERTICAL

# PICO PORTE

THE COMPACT  
LIFTING PLATFORM  
FOR GREATER  
ACCESSIBILITY

**ascendor**<sup>®</sup>  
LIFTECHNIK

## HIGHLIGHTS

- ↑ Low ramp height
- ↑ Efficient drive system
- ↑ High stability
- ↑ Proven components

# PICOPORTE

## ADVANTAGES & TECHNICAL DATA

- ✓ **Fast travel** - thanks to an efficient drive system
- ✓ **Stable platform** - for a comfortable ride
- ✓ **Lifting height up to 1 meter** - ideal for steps, platforms, or small height differences
- ✓ **Weatherproof design** - suitable for indoor and outdoor use
- ✓ **Easy to retrofit** - minimal space requirements, uncomplicated installation
- ✓ **User-friendly operation** - intuitive controls
- ✓ **Sleek design** - discreetly and elegantly adapts to any architecture
- ✓ **Power failure protection** - battery operation possible until the next stop

### TECHNICAL DATA

- † 0.3 - 1 m travel height
- † 300 kg load capacity
- † 2 stops
- † Travel speed  
max. 4.2 m/min (0.07 m/sec)
- † 1050 mm passage width (without door)
- † For indoor and outdoor use

### CONTROL & OPERATION

- † Mobile handheld transmitter
- † Wireless wall switch for outdoor call points
- † App control

### DRIVE

- † Innovative chain drive
- † 24-volt DC drive
- † Connection: 100-240V, 50/60 Hz

### COLOR / MATERIALS

- † Anodized, non-slip aluminum tear plate
- † Side glass panels
- † Anodized aluminum (silver)

### SPACE REQUIREMENT

- † 1580 x 1193 mm (LxW)

### TECHNOLOGY

- † Integrated error memory
- † Numerous setting options
- † Battery protection function

### PLATFORM

- † 1200 x 1100 mm (LxW)
- † Low ramp height (approx. 6 cm)

### DOOR (OPTIONAL)

- † Half-height door in the upper stop
- † Door drive with 930 mm passage width

### INSTALLATION

- † Easy retrofitting
- † No pit required thanks to flexible access ramp

### OPTIONS

- † RGB lighting
- † Display
- † Mounting column for wall switch
- † Voice output
- † SMS remote query
- † High guardrail (fall protection)

#### Optional door

For even greater safety, a half-height door can be fitted in the upper stop.

#### Fast travel

Noticeably faster and smoother than conventional lifting platforms. The extra-slim platform ensures a particularly low drive-on height.
